DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

- 2. Claims 12-14 should be formally cancelled since an election was made **without** traverse in the reply filed on 1/22/09.
- 3. Claim1-11 drawn to the elected species are allowable. Therefore, the restriction requirement among species, as set forth in the Office action mailed on 5/30/08, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 15-18, directed to a device that moves along the surface of an object is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim, and are thus, allowable.
- 4. In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Application/Control Number: 10/535,340 Page 3

Art Unit: 3611

5. Also, regarding claim 1, the phrase "i.e." needs to be removed for clarity purposes.

- The examiner further notes that claim 1 would be in better condition for allowance if line 11 starting at "the first region is positioned" and ending on line 13 with "downstream of the second region" was deleted since it seems to be redundant with the claim language that follows the "i.e."
- 7. The dependency of Claim 3 causes a clarity issue since claim3 contains the same limitation that the claim from which it depends contains.
- 8. Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.

- 9. Claims 1-11, 15-18 are allowed.
- 10. The following is an examiner's statement of reasons for allowance: None of the references taken individually or collectively teach or anticipate the recitation of "the liquid flowing downstream from the second region, reaches the first region and is subsequently transported to the suction means by riding the flow of the gas being sucked away from the first region", in combination with the other elements recited...

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
